The Warren County Genealogical Society (WCGS) is a 501(c)(3) nonprofit organization whose mission is to create and promote interest in collecting and preserving genealogical records. We are here to assist you in finding your ancestors and relatives and have many resources available to help you with your research. WCGS was established as a Chapter of the Ohio Genealogical Society on May 20, 1981.

How Can We Help You?

Research

Visitors to the WCGS Resource Library have access to paid subscriptions and other materials that help with family history research. We also do research for a nominal fee that helps support our Society.

Education

Our programs, classes, and workshops teach you how to search for your family records, keep track of what you find, and share this with others and future generations. Our programs are free, and our classes and workshops extremely affordable.

Help Save History

Your family's story is unique. Only through documenting your ancestors and their lives is that story able to be retained. With every branch and leaf you add to your tree, you are preserving history, not just any history, but YOUR history. Nobody else can do it exactly like you can!
