FamilySearch is a world leader in family history. There are only a few hundred affiliate libraries in the country. The designation means our library patrons will now have greater and more convenient access to the wealth of genealogical resources available through FamilySearch. The popular web service has over six billion searchable names and two billion images of historical genealogical records - and you get the helpful assistance of our Resource Library Volunteers.

FamilySearch adds over 300 million free genealogical records and images online yearly from all over the world and manages the famous Family History Library in Salt Lake City. It has amassed billions of birth, marriage, death, census, land, and court records from more than 130 countries to help you discover and make family connections.

### RootsTech 2023

Registration for [RootsTech 2023](#) is now open at [RootsTech.org](#). The global family history gathering will be March 2-4, 2023, with an in-person event in the Salt Palace Convention Center in Salt Lake City to complement its online experience. The theme for RootsTech 2023 is “Uniting.” RootsTech is all about bringing people, stories, memories, technology, innovation, communities, and ultimately families together.

Plan to join millions of virtual and in-person attendees March 2-4, 2023, for inspiring keynote addresses, instructive classes, innovative technologies, and most of all, the ability to connect people to their family — past, present, and future. “Families are the foundation of society,” said [FamilySearch](#) CEO Steve Rockwood in [an October 6 news release](#). “Connecting and uniting families across generations strengthens individuals and nations alike. We are amazed and gratified to see the role RootsTech has been able to play in helping literally millions of individuals connect with their family, past, present, and future.”

#### Join Online or Attend In-Person

The free online event features:

- 200-plus new on-demand class sessions and classes
- Main stage presentations and keynote speakers

“For those of you questioning whether to join us virtual or in person, the best part about this year is you get to choose how you join us,” said Jen Allen, director of events at FamilySearch in [the live RootsTech Q&A in September](#). “We hope you will come to Salt Lake if you’re able, but if you aren’t, the virtual experience is going to be incredible. We cannot wait to connect with all of you all over the world.”

The 2023 event marks the 13<sup>th</sup> year of this global gathering. In 2022, over 3 million people participated online. Since the beginning, innovation has been a guiding principle for RootsTech. Each year, the event organizers adapt the content to appeal to people worldwide and to stay current. “We feel compelled to keep learning and evolving,” said Jen Allen, RootsTech event director. “We are constantly seeking new ideas to help expand reach outside the industry and create engaging and educational experiences for RootsTech attendees.”
