## Proving Kinship by “Following the Money”

Proving kinship is crucial to joining a lineage society. Come learn techniques to connect your family by following the money. We will explore a complex kinship case study of a family who moved from Rutland County, Vermont, to Clermont County, Ohio. Kinship was established by exploring records over four generations since many vitals, probates, tombstone, and other useful records did not exist or were not found to connect the generations directly. Methodology of following the money by using tax, deeds, probate, and other records will be shown.
